

ALVIN GIOVANNI

Senior Data Analyst

Jakarta, Indonesia | +62 878-5522-9898 | alvingiovanni@outlook.com | linkedin.com/in/alvingiovanni | alvingiovanni.github.io

PROFESSIONAL SUMMARY

Senior analytics professional with 5+ years of experience partnering with executive leadership to drive product, marketing, and commercial growth through data. Proven track record of building company-wide analytics frameworks, translating complex data into strategic business decisions, and deploying machine learning and AI solutions. Experienced in leading cross-functional initiatives across fintech, consumer technology, and digital education, with expertise spanning growth analytics, customer segmentation, revenue attribution, and AI-enabled decision support.

PROFESSIONAL EXPERIENCE

Senior Growth Analyst

2024–Present

Mindvalley · Kuala Lumpur, Malaysia (Remote)

- Partner with C-suite leaders across Marketing, Product, and Data on acquisition, lifecycle, pricing, and growth investment decisions; established governed measurement across acquisition, retention, revenue, and product performance.
- Standardized LTV and CAC reporting across business units and regions, increasing 90-day LTV by **11%** and sustaining the improvement across two consecutive quarters while increasing profitability by **approximately 5%**.
- Built multi-touch attribution and a validated marketing mix model, contributing to an **approximately 20% increase in revenue** across previously underinvested channels and increasing marketing efficiency by **12%**.
- Led funnel diagnostics and lead-scoring programs that increased funnel efficiency by **22%**, funnel revenue by **8%**, and advertising conversion by **190%**.
- Developed an internal analytics application with AI-generated insights and a conversational data agent, cutting time to insight from 1–2 days to **under one hour** and making **approximately 80%** of recurring leadership questions self-service.

Data Analyst — Fintech

2021–2024

Tokopedia (ByteDance) · Jakarta, Indonesia

- Owned end-to-end analytics across business, product, marketing, data engineering, and data science; helped grow Merchant Lending **approximately fivefold** and scale the BNPL business to **approximately USD 200M in two years**.
- Led a cross-functional team to develop five behavioral BNPL personas and a personalization framework adopted across Product, Marketing, and Business, increasing revenue by **26%**.
- Built a channel-affinity model that routed campaigns to each user's lowest-cost, highest-affinity channel, reducing marketing spend by **12%** while increasing conversion by **20%**.
- Developed conversion-propensity and market-diagnostic models that increased net revenue after promotion costs by **approximately 5%** and revenue in targeted, inflation-resilient verticals by **approximately 30%**.

Operations Analyst · RPX–FedEx · Jakarta, Indonesia

2019–2020

Led analytical initiatives supporting operational efficiency and logistics network expansion across Indonesia.

Assistant Project Manager · Tatamulia · Jakarta, Indonesia

2017–2018

Coordinated cross-functional teams and developed data-backed reporting to manage project quality and delivery.
