PROFESSIONAL EXPERIENCE

Senior Marketing Analyst — Growth Strategy & Analytics Lead

2024 – Present

Mindvalley - Kuala Lumpur (Remote)

- Partner directly with C-suite executives to define marketing and product strategy, translating complex performance data into acquisition, lifecycle, and growth investment decisions.
- Collaborate with the Data Engineer and Business Intelligence team to define scalable data modeling lineage, ensuring reliable data and consistent metrics for executive reporting and strategic decision making.
- Design and implement a company-wide Measurement Framework to standardize KPI definitions, enhancing analytics maturity and accelerating decision-making.
- Developed LTV forecasting model that established CAC guardrails and payback thresholds, improving capital allocation decisions across paid acquisition channels and improving marketing profitability by ~5%.
- Led the design of a multi-touch attribution framework & MMM, identifying underinvested high-impact channels and increasing the channel's revenue by ~20%.

Data Analyst - Fintech

2021 – 2024

Bytedance (Tokopedia) - Indonesia

- Served as the focal point for PayLater fintech product analytics, owning all business, product, and marketing analytics.
- Partnered with Heads of Business and Product to steer strategy and inform roadmap decisions through rigorous data-driven analysis and identifying growth opportunities.
- Led a cross-functional team of analysts to develop and deploy a Customer Segmentation Model, increasing marketing engagement by 26% through personalized customer experiences.
- Led senior analysts to develop and deploy a Conversion Propensity Model into CRM platforms, increasing daily transacting users by ~17% and improving core activity metrics by ~21%
- Led the development and deployment of a Media Acquisition Model to optimize marketing spend allocation across lifecycle stages, achieving 12% cost savings and 20% conversion uplift.
- Built an inflation model that identified underserved segments, contributing to ~30% revenue uplift in targeted verticals.

Operations Analyst

2019 – 2020

RPX – FedEx - Indonesia

Led analytical initiatives to improve operational efficiency and support logistics network expansion projects across Indonesia.

Assistant Project Manager

2017 – 2018

Tatamulia - Indonesia

Coordinated cross-functional teams to maintain project timelines and quality. Developed data-backed reporting to track delivery.

EDUCATION & CERTIFICATION

Bachelor of Civil Engineering

2013 – 2017

Universitas Pelita Harapan, Indonesia

Data Science Bootcamp

Jun – Sep 2021

Rakamin Academy, Indonesia
